Education

St Mary's university

Addis Ababa, Ethiopia

Computer Science

Profile

As a computer science student, I am passionate about technology and innovation, with a strong foundation in programming, algorithms, and data structures. I have hands-on experience with software development, machine learning, and web development projects. Eager to learn and grow in the field, I am seeking opportunities to apply my skills and contribute to cutting-edge projects in the tech industry.

Professional Experience

Social Media Manager

Antwerpen, Belgium

- Social Media Manager and Graphic Designer at Little Ethiopia Restaurant and African Pride Shopping Center.

Projects

Hakim Center

- **Hakim Center** is a web application that serves as a broker connecting nurses with patients. This innovative platform streamlines the process of finding and contacting healthcare professionals, improving access to quality care.

Osuwaa Technology

- **Osuwaa Technologies** is a cutting-edge platform that serves as a broker between service providers and service seekers. This innovative project aims to streamline the process of connecting individuals or businesses offering services with those in need of them. By leveraging advanced technology and user-friendly interfaces, Osuwaa Technologies simplifies the search, comparison, and connection process for both service givers and takers. Through this platform, service providers can showcase their offerings and expertise, while service seekers can easily find and connect with the most suitable providers based on their specific needs.

Skills

Technical Skills

programming languages:

- C++, C#, Java, Python, JavaScript

Frameworks/Libraries:

- Bootstrap, Django, Express.js, Node.js

Databases:

- MySQL
